Story of a Shy Lady

"When a person is in need of help then god personally comes there to help him and when he can't, he sends one of his angels to help that person."

-Anonymous

This case was not any exception. Sapna found a middle aged woman on 23rd September 2014 in Kadooki village near Behrod road, Alwar, Rajasthan. Some villagers informed one of our officials Bhai Shiv Kumar about the lady and her condition. Bhai Shiv Kumar took that miserable soul to Sapna's Alwar Office.

First of all she was given medical treatment and she was looked after by our dedicated staff. We tried talking to her but because of her deteriorating mental condition we couldn't find much about her. Sapna officials did their best to find her family but this took them time as what they only had was a photo of the victim.

Sapna looked after the lady from July 2014 till November 2014. Her mental state was not good, she needed more care. She needed to be treated as if she is a 9 year old child. Every Sapna official took special precaution in treating her. Doctor's treatment showed traces of Head Injury and then the doctors proceeded in order to make her condition better. As the time passes by everyone made a bonding with the lady. She had her own way of showing her emotions; she talked very little because of her shy behavior. Everyone in Sapna started calling her Sharmili.

Then the good news came, all the efforts of Sapna workers paid off and a person named Dinesh Prajapati came looking for the lady. Sharmili's actual name is Sumitra Devi who got missing for a year. Sapna gave her back to her family after all the official formalities.

Sumitra a.k.a. Sharmili reunited with her family happily on 23rd of November 2014 and now she went back to Ajamgadh, Uttar Pradesh. Sapna will never forget.

"We at Sapna are very selfish people. We do this help as helping other needy people gives a smile in every single face working in Sapna." **Story BY ANSHUMAN BHADAURIA**
