

The less fortunate ones....

Unknown patient TC No 334646, Harish Chand was admitted at TC on 13 Oct 2012 with head injury & multiple medical problems. His right leg was amputated & left hand was fractured.

On 15th Nov 2012, he regained consciousness and was able to give his personal details. With Head Constable Aslam Ali's help of Nizamuddin Police station, we were able to get in touch with his family.

Initially his wife was reluctant to take him home because she has a mentally challenged daughter to take care of apart from 2 other young daughters. Finances were a major constraint too but after much convincing by SAPNA, she finally agreed to take him home.

Fortunately for him, one of our brand ambassadors, "**Ms Natasha Seghal**" arranged a folding bed, bed sheets, mattress & dry rations for him. She has also promised to provide rations for him every month.

2 blankets, a shawl, adult diapers, medicines were also given to him.

And finally, he was taken home to Sanjay Colony, Okhala Phase-1 in the ngo's ambulance.
