PREMA REUNITES WITH HER FAMILY IN AZAMGARH, UTTAR PRADESH

The story of Prema is quite heart wrenching and unfortunate. She is a fifty-year-old lady was living with her husband and two sons in district Azamgarh in Uttar Pradesh. She has psychiatric issues. One fine day Prema went missing from home. Missing complaint was lodged by her son in Azamgarh District. Prema wandered from home and got into a train that took her Alwar. She was found roaming around Vijay Mandir in a deranged state when a social worker of Anandam spotted him and brought him to the center in March, 2018. She was shown to doctor and prolonged psychiatric treatment was started. It took six months for her to get normal. She started recovering her memory. One day she gave us details about her home and family members. One of our social workers named Vijay is also from Azamgarh District. Vijay talked with village Sarpanch and other people from her village and arranged her reunion with family member. On 14th Feb 2020 her son and brother came to Vijay Mandir and handed over Prema to his son. We arranged for her medicines. We continue to follow up his case, happy that she has settled into a routine life.
