# 1. Success Stories

## Story of Arjun

Arjun in Anandam, Dadikar

On October 9, 2021 a 70-year-old patient named Arjun Prasad was admitted to the trauma center in New Delhi by the police. Arjun had severe injuries on his left legs and was in a serious condition. It seemed like he was nearing the end of his life and his mental state was unstable. He couldn't provide any information about his home. He stayed in the hospital for a few days and received treatment for his physical injuries as well as mental health care. He was discharged on October 27, 2021, and sent to the Anandam Vijay Mandir in Alwar.

He received regular care there, which helped improve his physical condition, but he still had mental health issues. He stayed there for about one and a half years, and then he was sent to Anandam Dadikar in Alwar. He stayed there for about a month, during which his mental health improved, but suddenly his condition worsened. He was then taken to the ESI Hospital in Alwar, where he showed signs of improvement. After that, he was brought back to Anandam Vijay Mandir, where his physical and mental condition improved.

Then, Ramesh, a caretaker at Sapna, started asking Arjun about his name, address, and family members. It seemed like Arjun was gradually remembering things. He provided information about his home, mentioning that it was located in Brahmpura, Hillsa Post, Nalanda district, Bihar. The coordinator contacted the Bihar Police and sent them a photo on WhatsApp. After seeing the photo, the SHO of Hillsa Police Station sent Constable Shivshankar to Brahmpura village to find Arjun's home address and obtain information about his family members. According to the police, Arjun's family had considered him dead, so they closed his file. His eldest son, who lives in Nalanda, Bihar, was contacted by the police. He said he would come to pick up his father the next day.

The next day, Arjun's youngest son, Rakesh Kumar, who lives in Delhi and is 43 years old, came to pick up his father from Anandam Vijay Mandir. (Cont..)

He shared the story of his father's disappearance. He mentioned that his mother had passed away 10 years ago, after which his father's mental health started deteriorating. That's why he brought him to Delhi for his care. Rakesh Kumar works as a wall putty worker. His father had leg injuries, so he was undergoing treatment for his legs and mental health. His father had gone missing twice before, but they were able to find him because he had a personal phone. Later, his father lost his phone, so he started keeping a note with all his information in his pocket, which helped him find his way home if he got lost.

Arjun (in right) with his younger son

On September 2, 2021, Rakesh Kumar went out for work, wearing a different shirt than the one with the note. When his father didn't return home by 8 pm, Rakesh started searching for him. He thought his father might have gone out, but when he didn't come back, he began searching for him. He called his brothers in Bihar and rented a vehicle to search for his father. He registered a complaint about his father Arjun's disappearance at the Kapashera Police Station in South West Delhi. He put up posters in different places and shared the information in WhatsApp groups to find his missing father. Rakesh Kumar took a leave of around 15 days to search for his father, but he couldn't find him. Rakesh would see his father in his dreams, giving him hope that he would eventually find him. Then, on May 30, 2023, Rakesh received a call from his brother in the evening, informing him that their father was at the NGO Sapna in Alwar. Rakesh immediately went to Sapna the next day, May 31, to bring his father back. The joy of meeting his father again was evident in Rakesh's eyes. After some paperwork, Arjun was sent with his son Rakesh Kumar. We hope that Arjun stays happy with his family and has a long life.

## Story of Urmila

On 15 April 2019, a 34-year-old woman named Urmila was found near Vijay Mandir Road. He was seen by our Social Worker Shiv kumar. He brought her to the Anandam - a home for the homeless at Vijay Mandir, Alwar. We realized her mental condition was not good. She was very disturbed, agitated and was not able to give any information about her whereabouts. The next day she was shown to the psychiatric doctor and treatment began in all earnest. The doctor instructed her to take medicine regularly after a few months, we saw a lot of improvement in her. She began assisting in day-to-day activities of Anandam such as cooking, drinking water to patients and cleaning work.

Urmila (in right) with her son

After about two years, she gave information about her family members. She stated that she is a resident of Baharchuwan village, in Korba district of Chhattisgarh and provided information that her husband's name is Gokul and she has a son by the name of Rajkumar, who is studying in Arts stream in class 12th. She said that her husband used to fight with her repeatedly under the influence of alcohol and she was in a depressing state and one day she decided to left the house. She also mentioned the name of the police station Kartla Police Station which was close to her house.

After this, the management of Anandam started contacting the Kartla police station and local Police administration. We contacted Senior Inspector Tej Yadav from Kartla police station. He assisted us in locating her family. We sent Urmila's images on his WhatsApp. He contacted the village sarpanch and showed the picture of Urmila. Sarpanch recognized her immediately and called and her family members. It also came to know that Urmila's husband passed away two years back. Her son was unable to come Alwar along due to their financial constraints. After persistent efforts, finally on 17th April, 2023 SI Tej Yadav along with her son Raj Kumar arrived Vijay Mandir, Alwar to take her back. Urmila went to her village Baharchuwan on 18 April 2023 with her son. May she live happily with his family and children, this is our prayer to God.

**Inauguration of DRI Sustainable Agriculture Center at  
Village Dadikar, Alwar On June 5, 2023.  
A CSR Project of Desiccant Rotors International Pvt. Ltd**

# 8. Social Welfare

## Supporting marriages in need

**“Shadi” is an important moment in the life of Indian families. However, the cost of a wedding can be a considerable financial strain for low-income families. This might force families to make difficult decisions, including going into debt or borrowing money to make ends meet.**

**Another activity undertaken by NGO Sapna is to assist disadvantaged families with the marriage of their daughters. We assisted several poor families in their daughter marriages in villages Kaduki and Dadikar, in Alwar, Rajasthan.**

**We recently assisted two families from Village Dadikar who were struggling financially in the run-up to their daughters’ weddings. Their wedding was scheduled for April 30th, May 5th, May 17th, May 21st 2023.**

**SAPNA generously provided essential supplies like clothes, utensils, and rations, which allowed the family to celebrate their daughters’ weddings without financial worry.**

**By providing essential supplies and support, SAPNA helps families make memories that will last a lifetime. By providing essential assistance and promoting community welfare, SAPNA is helping to create a more equitable and supportive society for all.**

**Special Thanks to all donors who have supported this project**

# 9. Factory Adoption Programme

by ESIC Hospital, Alwar

**On 26th April 2023, ESIC Medical College & Hospital successfully conducted an event called the "Factory Adoption Programme" at Vijay Mandir, Alwar. The medical team from the hospital provided free medical check-ups and medicines to all the staff members of the "SAPNA".**
